Forecast for Monday 14 Sep 2020

Weather: A misty start in some valleys, especially in the east of the park, but the mist will lift and clear during the morning, leaving a dry and sunny day. In the sunshine it may feel very warm on any long ascents.

Chance of cloud free mountain/hill tops above 800m: 100%, with cloud remaining above the summits throughout.

Visibility: Generally very good visibilities across the park, with most hills in sight seen clearly. Visibilities will fall to around 4000m in mist first thing.

Valley	17/16	19/18	22/21	23/23	21/20	21/19	20/18
Freezing Level*	3300m	3300m	3300m	2600m	2700m	3000m	3700m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels may reach high at times at height during the middle of the day, giving a risk of sun burn.

Forecast for Tuesday 15 Sep 2020

Weather: A few mist patches possible first thing, otherwise a cloudier day compared to Monday, but still some spells of sunshine possible. There could be a few showers around, with the odd thundery shower possible.

Maximum wind: Southeasterly 15-20mph with gusts up to 25mph, winds veering southwesterly 10-15mph with gusts up to 20mph during the afternoon.

Chance of cloud free mountain/hill tops above 800m: 100% during the morning, reducing to around 60% from mid-afternoon, with occasional cloud developing above 600m.

Visibility: Generally very good, but temporarily falling to around 5000m in any showers or mist, and around 100m in any hill fog from mid-afternoon.

Temperature: **Valleys:** Plus 12 Celsius increasing to Plus 21 Celsius during the afternoon.
At 800m: Plus 17 Celsius falling to Plus 11 Celsius by the end of the day.
Freezing level: Above the summits.
